

Mountain View Wood Works

New Program Career Band Kit Instruction Sheet

1. Locate which strips you will need based on your Scout's achievements
2. Organize them in front of the arrow using the above image as a guide for order and placement. Be careful not to run out of space!
3. Peel the colored strip off of the backing and apply it to the shaft of the arrow. You may find it easy to start with one end of the colored strip and roll the arrow between your fingers to apply.
4. Continue this until all of the appropriate strips are on the arrow.

This kit allows you to display the Required Achievements to advance through Cub Scouting. If your Scout has earned more than the required Belt Loops or Adventure Pins, please visit www.mvwww.org and take a look at our **Belt Loop Plaque** and our **Adventure Pin Plaque** to display these awards.
